

22nd World Congress on Toxicology and Pharmacology

Paula M

Associate Professor, Department of Toxicology, Complutense University, Spain, E-mail: paulamci03@gmail.com

The "[22nd World Congress on Toxicology and Pharmacology](#)" was conducted as live webinar during July 14-15, 2020 due to COVID19. The webinar offered a unique opportunity for toxicologists across the globe to meet, network, and learn new scientific innovations. Generous response was received from Toxicologists, Pharmacologists, scientists, doctors, academicians, nurses, pharmaceutical industries, healthcare industries, researchers and students from the fields of toxicology those who involved in this successful online event.

The conference highlights of 2020 are as follows:

Conference Series LLC Ltd is excited to organize "[23rd World Congress on Toxicology and Pharmacology](#)" which will be held during March 22-23, 2021 at [Kyoto](#), Japan. [Toxicology Congress 2021](#) will assemble leading principle investigators, pharmacologists, toxicologists, research scholars, clinicians, CRO's, biotech and pharmaceutical industry professionals to discuss the advancements in health care therapeutics and clinical trials.

Toxicology Congress 2021 provides an amazing platform to share research ideas on relevant topics of interest to both toxicologists and pharmacologists. The conference will incorporate participants from all over the world including scientists from industry, universities and other research and governmental institutes and trainees in the field. The conference includes keynotes, workshops, oral presentations and posters considering and showcasing the assessment of engaged and impactful research.

The topics of the conference focus on the current and future trends in toxicology and pharmacology. The congress will cover a broad spectrum of toxicology and pharmacology topics such as: risk assessment and

toxicology, environmental toxicology and food safety, analytical toxicology, genotoxicity, pharmacological testing, forensic toxicology, applied pharmacology, etc., through invited keynote and plenary lectures, workshops, symposia and session talks.

Why Toxicology Congress 2021??

- [At Toxicology Congress 2021](#) you can meet the toxicologists, pharmacologists, clinical research professionals, biochemists and industrialists from across the globe who will deliver the knowledge on latest innovations and scientific approaches thus, helping you in widening your scientific knowledge.
- The topics of the Congress truly reflect the recent approaches and advances in Toxicology and Pharmacology.
- The congress will cover topics such as Mechanisms and modes of action of various toxins, Clinical and Forensic toxicology, risk assessment, Emerging in vitro models, Medicine Development and Safety Testing, Regulatory toxicology and toxicological and Pharmacological testing.
- The city of Kyoto is what most travelers' dream of when envisioning Japan.

The next series of conference organize by Conference Series is [23rd World Congress on Toxicology and Pharmacology](#) which is going to be held during March 22-23, 2021 at Kyoto, Japan. The Theme of the conference is 'Innovative approaches in Development of safer and less toxic medicines'.
