**Keywords:** Pharmacy, Pharmaceutical sciences

Dear Readers,

On behalf of the Board of the [International Journal of Pharmacy](#) (IJP) and my co-editors, I am glad to present the Volume 10, Issue 3 of the journal. The journal established in 2010 has now published 10 Volumes; five issues in a year. The journal is getting indexing in almost all good association now indexed in Google Scholar, Global Impact Factor (GIF), General Foundation for Medical Education and Research, DRJI, Scientific journal impact factor (SJIF), Info base index, Eurasian scientific journal index (ESJI), Hinari Research in Health, International Committee of Medical Journals Editors (ICMJE), Cosmos impact factor, Open Academics Journal Index (OAJI), I2OR, EBSCO, International Innovative Journal Impact Factor (IIJIF), ROOT INDEXING, Scientific Indexing Services (SIS). Average download per article is increasing and on an average there are 5654 views in last month. All these are promising signs. We could reach this stage through the constant support of our valuable Board Members and intellectual generosity of our readers and contributors (also our most important authors and reviewers). One of the aim of the International journal of Pharmacy is to encourage publication from different streams of research. Readers

can particularly notice progress made in this direction by publishing articles from more than 60 countries and having Impact Factor: 0.46 of this journal. We take this opportunity to thank the authors/publishers for sending their articles for publishing and excellent review by reviewers. Review process is done by Dr. Derek Reichel and Dr. Magdalena Makarska-Bialokoz, who are the most active Reviewer of this journal. We are expanding our editorial board for addressing the gaps and further enriching this journal. I am glad that Dr. Abimbola Farinde joined as one of the Editor of this journal. His brief profile is enclosed. I am sure with all editors efforts the journal will be able to strengthen the links between pharmacy, science, technology, society and their studies. Also joining the editorial team is Dr. Moawia Al-Tabakha and Dr. G Betageri. They had been actively involved in the journal's successful issue release. Interested readers can see her profile in the [Editorial board](#). Their joining the editorial team, will help in strengthening the coordination and management of the journal. Dr. Anton V. Dolzhenkoa doctor working in Dept. of Medicinal Chemistry, Curtin University joined the journal as an Editor board member will be very useful for strengthening the journal editorial process.
